”The Heavens We Make”

WHO: Serena Giordano, Sandro Beltramo, Anna Ulff, Jaana Erkkilä. We are a group of four artists originally from Italy, Sweden and Finland. Serena and Sandro live in Italy, Anna and Jaana in Finland. We share an interest in discussing philosophy by using visual language in the field of contemporary art.

WHAT: We explore diverse aspects of ideas connected with religious beliefs, contemporary consumption connected with relics, imaginary and real worlds of everyday life. Our aim is to study “heavens we make” – contemporary expressions and ideas of paradise, here on the earth and perhaps even beyond. Our visual language varies from sculpture (Sandro Beltramo) to digital works, photos and videos/animations (Serena Giordano) to installations (Anna Ulff) to prints (Jaana Erkkilä). There will be an interactive workshop during the exhibition inviting people to participate in creating their own paradise.

WHEN: We are open for any exhibition time during year 2015 in the galleries VALO and KATVE .
